

RICHARD XAVIER

QA AUTOMATION ENGINEER

Mirassolândia, São Paulo, Brazil | +55 17 99102-3691 | richard.xavier883@gmail.com
linkedin.com/in/richardxavierqa | Open to Remote and Hybrid Opportunities

PROFESSIONAL SUMMARY

Technology professional with **8+ years of experience in Information Systems**, including **3+ years focused on Quality Assurance and Test Automation**. Hands-on experience testing **Web, API, Desktop, and Mobile applications** using Playwright, Cypress, Postman, Robot Framework, Appium, and CI/CD with Azure DevOps. Experienced in manual and automated testing, test case design, bug reporting, acceptance criteria, and Agile environments. Developed and maintained **90+ automated test scenarios**, monitored **600+ API endpoints daily**, and contributed to the quality assurance process of **1,000+ mobile application releases**.

TECHNICAL SKILLS

E2E Test Automation: Cypress, Playwright, Robot Framework, SikuliLibrary, Selenium

API Testing: Postman, functional validation, regression testing, daily monitoring, automated failure notifications

CI/CD & Version Control: Azure DevOps Pipelines, Git, Continuous Integration, automated test execution

Mobile, Desktop & Programming: Appium, Robot Framework + SikuliLibrary, TypeScript, JavaScript, Python

QA Practices: Test Cases, Functional Testing, Regression Testing, Acceptance Criteria, Bug Reporting, Test Execution Reports, Allure

Methodologies: Agile, cross-functional collaboration, Continuous Improvement

PROFESSIONAL EXPERIENCE

QA Automation Engineer | Consumer

May 2023 – Present | São José do Rio Preto, São Paulo, Brazil

- Plan, execute, and automate functional and regression tests across **Web, API, Desktop, and Mobile applications**, ensuring the quality of features and releases.
- Develop and maintain **End-to-End automated tests and regression suites using Cypress and Playwright**, covering more than **90 critical Web flows**.
- Monitor **600+ API endpoints daily using Postman**, including automated validations and failure alerts.
- Integrate automated tests into **Continuous Integration pipelines using Azure DevOps**, providing continuous feedback on builds and software releases.
- Develop Desktop automation using **Robot Framework + SikuliLibrary** and perform Mobile testing with **Appium**, contributing to more than **1,000 Android and iOS application releases**.
- Create and maintain Test Cases, execution reports, bug reports, acceptance criteria, and QA documentation/Wiki; served as the **first dedicated QA professional on the team**.
- Collaborate with Development and Product teams in an Agile environment to identify risks earlier and improve release quality and reliability.

Systems Analyst | Consumer

March 2018 – June 2023 | São José do Rio Preto, São Paulo, Brazil

Previous experience working with information systems and business processes, building a strong technical and functional foundation that later supported the transition into Quality Assurance and Test Automation.

EDUCATION

Bachelor's Degree in Computer Science | Universidade Paulista (UNIP), 2017 – 2020

Ignite – Information Technology | Rocketseat, 2021 – 2022

CERTIFICATIONS & ADDITIONAL TRAINING

Cypress Intermediate | Python 3 | Functional JavaScript | Programming Logic | Cisco IOS Essentials

LANGUAGES

Portuguese: Native | **English:** Intermediate / Professional Working Proficiency

CNA English Program | 2022 – 2025
